

## OFF FOR MONTREAL.

Departure of the District Delegation to the Christian Endeavor Convention.

Hanpess was visible in the face of the sixty delegates who last night took their departure for the great convention of Christian Endeavor that will meet in Montreal tomorrow and continue until the 9th instant. Many of them had attended similar conventions in the past and had a definite idea of what was to be expected in this one. Others knew of past conventions only by hearsay and were looking forward with happy anticipation to their first actual experience. A large part of the delegation met at the First Congregational Church at 7:30 and went in a body from the church to the depot.

The entire party was assembled in the waiting room of the B. and O. station fully half an hour before the time of departure.

"All aboard for Montreal," called out Chairman McMillen, and off went the delegation on their way to the special train of Pullman sleepers which was in waiting. The work of a few minutes, and soon all were comfortably seated on the platform and the train moved out promptly at 9 o'clock. As it passed out of the station those on the train and those on the platform joined in the sweet strains of "God Be With You Till We Meet Again."

The Catholics of Montreal are taking an active part in the reception of the visitors, so far as a time secession will be forgotten. The business meeting of the trustees will be held tomorrow, and the convention itself will not open until the evening. The District delegation will arrive in good time for this, and expect to return next Monday.

The delegates were as follows: Miss Nellie E. Bunn, Miss Z. H. Brockett, D. S. Bennett, Miss L. C. Burdette, Mrs. J. A. Clark, Miss Blanche C. Conner, Miss Jessie Carpenter, Mrs. H. A. Church, E. R. ## HOWARD COUNTY NEWS.

Correspondence of The Evening Star.

ELLIOTT CITY, Md., July 3, 1893.

The Howard county wheat crop, which a few days ago was full of promise, has, it is stated, been badly damaged. The weather has been unfavorable also for saving the hay crop. Ex-Gov. John Lee Carroll, who grows wheat more extensively than any other farmer in this country, has cut down about eighty acres of his crop.

Mr. John F. McMillen, Jr., son of Cashier McMillen of the Patapsco National Bank, left on Friday for Richmond for the purpose of getting with him the intention of the crop. He goes south with the intention of getting in business. Mr. McMillen, who is not yet twenty years of age, is a young man of much promise and recently graduated from Rock Hill College with the highest honors.

The fine country residence of Mrs. Nasmyth, which was recently purchased by Mr. David Stewart of Baltimore for \$15,000, is one of the most beautiful country homes in Maryland.

Mr. J. W. Kerr, manager of the Thistle Manufacturing Company works, in Howard County, has gone on Saturday from Chicago, where he spent two weeks.

Mr. and Mrs. Wm. Stewart of this county have gone to Leesburg, Va., for several months. S. P. Putney has sued Wm. F. Weller of Granite for \$3,600 for work \$3 per day for repairing the machinery of the latter's quarry—a nice little bill of \$11,000.

Mr. Bishop of Baltimore is spending the summer at Patapsco Institute, but will shortly visit Chicago and the world's fair.

Mr. Wm. Hodges and Miss Mary Hodges, wife and daughter of Mr. E. H. Hodges, are staying some time with relatives in Southampson county, Va.

The Sunday school room of Emory M. E. Church is being greatly improved and beautified with a new platform, altar rail, carpet and pulpit.

Mrs. Frank Brown, wife of Gov. Brown, is recovering from an illness at her home near Sykesville.

The Episcopate of the Lutheran Church. Mr. Cornelius Eckhardt of this city has received from Bishop J. W. Elohim of the Finnish Lutheran Church at Ironwood, Mich., articles of incorporation, to be presented at the next Congress. The petition says that the people of the Evangelical Lutheran faith in the United States have organized the Finnish Church of America, and petitions the sanction of Congress.

This action was taken at the general convention of this church, held at Ironwood, Mich., on the 24th day of June last, and was done for the purpose of forming a more complete church union and to organize the church government.

The bishop duly elected shall continue in the office as long as conducting himself well and performing his ecclesiastical duties in harmony with the constitution.

Some of his official duties are to watch over that the Divine Word in its purity is taught, to see that the holy sacraments and the holy ceremonies are rightly and properly administered, and to instruct the children and youth to examine candidates for confirmation, to ordain ministers of the Gospel, to install the pastors, teachers and elders, to dedicate the places of worship and teaching and to represent the church and its government.

United Order of the Golden Cross.

Haynie; worthy prelate, John N. Eble; noble keeper of records, Wm. E. Graham; financial keeper of records, John A. Van Doran; treasurer, Mrs. Emma McKinnon; worthy herald, Samuel Mahoney. This commandery has ninety-eight members and two applications pending.

Putnam; Halycon at Society's Temple, 5th and G. streets northwest, Friday, by Deputy Grand Commander R. D. Weston; Capital, at Golden Cross Hall, 316 Pennsylvania avenue, southeast, Saturday, by Deputy Grand Commander Frank E. Newton.

The Wooden Block Malady.

A new malady has made its appearance in Europe, which is attributed by the leading medical authorities of the old world to the wooden blocks with which the streets of London and of so many other great transatlantic cities are paved. The ailment takes the form of quinsy and blood poisoning, in some cases attacking the throat, in others the eyes and in some, again, the entire system. It seems that the wooden pavements, notwithstanding the continual cleansing to which they are subject, are not able to remove all the dirt and dust in the interstices, and that the practice of constantly watering them has the effect of producing a solution particularly favorable to the development of germs. When dry it is converted into dust and is blown by the wind into the eyes, nostrils, mouth and respiratory organs, producing symptoms otherwise unaccountable.
